

Puget Sound Human Factors and Ergonomics Society

ISSUE 2, 2019

THIRD QUARTER

A Message from the President

Dear PSHES members:

Greetings! It has been a busy year for the executive council. PSHFES hosted a webinar in May with **Dr. Kermit Davis**, president of HFES as the guest speaker. Kermit talked about his work across a wide range of research areas. For those of you who weren't able to attend in person, you missed out on some fantastic food from Café Turko! I would also like to take the time to introduce two new executive council members; **James "Kimo" Hudson**, and **Gus Arroyo**. Kimo is the regional safety manager for Macy's, and Gus is a consulting technician for BSI Group. We welcome our new council members! I think I speak for everyone on the council in that each one of us on the council is personally thankful for all the hard work our fellow council members contribute throughout the year.

Recent executive council activities include working on our contribution to the National Human Factors & Ergonomics Society's upcoming **63rd Annual International Meeting** here in **Seattle** from **October 28, 2019 to November 1**, and other events throughout the year. With input from the council, **Miriam Joffe**, **Outreach Chair** organized two special events: Technical tours and educational track **#SS2, "Invited Speakers from the PNW"**. See page 2 for details. This session will kick-off with stories and photos about PSHFES' ~20 year history.

Thanks again for supporting PSHFES. See you soon at the 63rd International Annual Meeting!

Randy Pickett, MA

The 63th International Annual Meeting of the Human Factors and Ergonomics Society is scheduled to take place at the Sheraton Grand Seattle (downtown Seattle).

<http://www.hfes2019.org/meeting-program.html>

The agenda for Invited Speakers from the Pacific Northwest track is listed below:

Tuesday, October 29

Mission Statement

- Provide opportunities for professional development, networking, workshops, and education for local Human Factors and Ergonomics (HFE) professionals, students, and enthusiasts.
- Raise public awareness of the value and benefits of HFE.
- Provide volunteer opportunities for HFE professionals to contribute to the Puget Sound.
